

Petition to Defend Universal Public Health Care in Canada.

We, the undersigned residents of Canada, draw the attention of the Government of Canada to the following:

- **THAT** after promising Canadians they would invest billions more in health care, the Liberals are going ahead with Conservative cuts to health transfers;
- **THAT** creeping privatization, planned spending cuts, and a new court challenge by powerful interests threaten to end universal public health care as we know it;
- **THAT** the size of your paycheque should never determine the quality of health care your family receives;

THEREFORE, we call on the Government of Canada to stop the cuts, defend our healthcare system, and improve it for future generations.
