

Let's Save Our Coast... Again.

We, the undersigned residents of Canada, draw the attention of the House to the following:

- **THAT** the Canadian Government should not spend billions of dollars on a pipeline;
- **THAT** expanding the Trans Mountain Pipeline will increase the risk of bitumen oil spills, endangering Canada's environment and wildlife, and putting thousands of marine and tourism jobs at risk;
- **THAT** expanding the pipeline would disregard the right of Indigenous Peoples to say no to projects affecting their territories and resources;
- **THAT** expanding the pipeline will increase greenhouse gas emissions and make it impossible to meet Canada's global climate targets;
- **THAT** in light of the unanimous federal court decision, the federal government must fix the broken pipeline approval process to create certainty for communities and industry;

THEREFORE the federal government must cease the Trans Mountain pipeline expansion and invest in clean, renewable energy sources.
